Gympie Digital Privacy User Group - Inaugural Meetup

Event - Gympie Digital Privacy User Group - Inaugural Meetup ↻

Title	Gympie Digital Privacy User Group - Inaugural Meetup
When	Sat, 7. December 2024, 10:00 h - 13:00 h
Created by	Super User

Description

For those of you wanting to improve the **privacy of your phones, tablets, laptops, and computers**, and get away from using big tech's expensive software, I would like to invite you to attend the inaugural "**Digital Privacy and Free Open Source Software**" user group meetup.

The group will explore the following topics:-

- How to make your existing phones, laptops, and computers more private, including settings and user behaviour changes.
- Free open source apps to replace closed source proprietary ones; including apps for iOS, Android, MacOS, Windows, and Linux (of course).
- Avoid big tech cloud platforms.
- Replace MacOS or Windows with Linux - how to do this.
- De-google your Android phone, with live demonstrations and assistance.
- Using a VPN (Virtual Private Network).
- Avoid the nasty side of Artificial Intelligence.

Many of you already know that I have a long history of using free open source software for hosting websites as well as using the Linux operating system on desktop/laptop computers. I will be sharing this knowledge for anyone interested.

I am envisaging that this user group will meet every week on a Saturday morning at the Veteran Hall from (say) 10:00 to 12:00.

The first gathering will be:-
When: Saturday the 9th November 2024.
Where: Veteran Hall - 598 Sandy Creek Road, Veteran Q 4570

Note: This initial meeting is by donation to cover the hall hire cost. Future costing will be decided by the group that forms should we decide to continue weekly.

Please contact Graham on 0409 723 008 (or graham@webenhanced.com.au) for more info and to let me know who's coming.

Venue - Veteran Hall

Location	Veteran Hall
Street	598 Sandy Creek Road
